2.

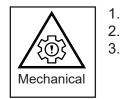

3.

4.

- Disconnect power before servicing.
- For connection to main power supply, proceed to page 4.
- The power supply must be earthed (electronically grounded).
- This fixture must not be left on for long periods of time.

Protection Against Mechanical Hazards

- Use secondary safety chain when hanging unit.
- Use quality clamps or bolts when positioning unit.
- Do not open unit while it is on. Risk of electrical shock.

Ingress Protection

The IP rating is commonly expressed as IP (Ingress Protection) is followed by 2 numbers (i.e. 65) where the numbers define the fixture rating. The first number indicates the size of a particle that can enter the fixture. The second number indicates the extent of protection against water entering the fixture. An IP65 rating in this fixture indicates that dust particles can not enter the fixture, and there is protection against water spray from entering the fixture from any direction.
