COLOR Q70 IR

# DESCRIPTION

The Baby Color Q70 IR is a compact, bright color-changing fixture controllable with a new infra-red remote controller. Its output is comparable with larger fixtures and can produce a wide range of colors, including shades of pastel.

This fixture has a 16° beam angle, and it has an included diffuser that widens the beam angle to 25°. It features a dimmer, strobe, macro effects, and audio control chases via display.

# Features.

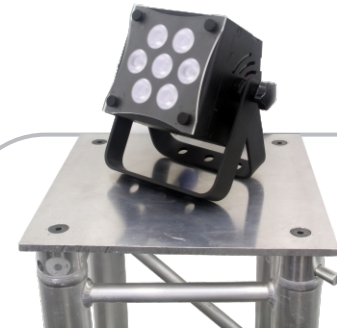

## IR REMOTE CONTROL

The Baby Color Q70 IR comes with an infra-red remote controller that can set lighting commands. The controller can be used with or without the diffusion cover, as long as it is facing the front LEDs.

## COMPACT

This compact, powerful fixture is just five pounds, making it ideal for productions, weddings, banquets, conference rooms, and more.

## RGBW COLOR-MIXING

This unit is built with seven 10W RGBW LEDs that allow for color-mixing with Red, Green, Blue and Cool White. Whether you're looking to produce vibrant and dynamic hues or delicate and intricate pastel luminations.
