

outshine
FLASH STRIP TW

DESCRIPTION

The OUTSHINE FLASH STRIP TW is a unique fixture that combines white and amber LEDs 4W each, with a total of 240 as its main element. It is divided into twelve pixels, which can create a burst of light or be pixel-controlled to create a running strobe FLASH effect. The unique amber strobe provides a blinder effect with a soft, elegant, warm feel. This primary element is sandwiched between two rows of red, green, and blue LEDs with 24 pixels. Each LED is .5W with a total of 720 LEDs. The included diffuser provides an easy-to-attain soft look to the fixture, making it a light source with a graphical look when needed. As an IP 65 unit, it is protected against inclement weather, making it ideal for temporary outdoor applications. Its adjustable mounting base makes it perfect when mounting between truss crossbeams, taking into account features requested by our industry friends.

Features.

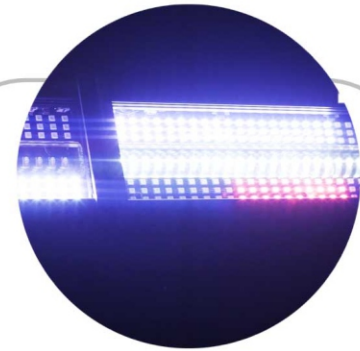

LINEAR STROBE

Pixelized high output strobe
in either amber and white

OUTDOOR USE IP65

Designed to be used
outdoors and indoors

RGB PIXEL

Two rows of pixable RGB
effects.

Specifications.

Mechanical Specifications:

IIP Rating:	IP65
Housing:	Die-Cast Aluminum
Power Connection:	Seetronics SAC3MPX Input (Nema 5-15 to SAC3Fx-67 cable included)
Signal Connection:	5 Pin XLR In and Out
Fastening System:	Adjustable Mounting Yoke

Control Systems

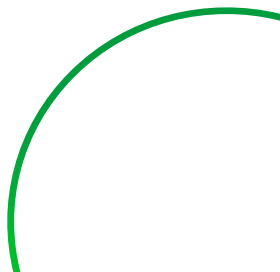

Control Protocols:	DMX 512, RDM
RDM:	DMX Address, Channel Mode, Temperature Sensor, Device Hours
Channel Modes:	4 Modes of operation Mode 1: 5 Channel Mode Mode 2: 14 Channel Mode Mode 3: 96 Channel Mode Mode 4: 110 Channel Mode
Display:	LCD

Electrical Specifications:

Light Source:	240 WA 4W LEDs 720 RGB .5W LEDs
Power Supply:	Electronic 90-264V AC 50/60
Power Consumption:	627 Watts 5.33 Amps @110V

Size and Weight:

Fixture Size:	39.37" X 5.25" X 8" (1m x 13.33cm x 20.32cm)
Fixture Weight:	19.5 lb (8.84kg)
Packaged Size:	41.25" X 6.75" X 8.5" (104.7cm x 17.14cm x 21.59cm)
Packaged Weight:	21.5 lb (9.75kg)
