Check that the unit has not been damaged during transport

Read all cautions and warnings
prior to operation of this
equipment

Protection Against Fire

1. Maintain a minimum of 1 foot distance from any type of flame.
3. Replace fuse only with the specified type and rating.
4. Do Not install the unit too close to a heat source.
5. Make sure cables are properly secured
6. Maximum surface operating temperature 140°.

Protection Against Electrical Fire

1. Disconnect power before servicing.
2. For connection to main power supply proceed to page 6.
3. This unit must be earthed. (electronically grounded)
4. This fixture must not be left on for long periods of time.

Protection Against Mechanical Hazards

1. Use safety chain when hanging unit.
2. Use quality clamps or bolts when positioning unit
3. Do not open unit while it is on, risk of electrical shock.

Ingress Protection

The IP rating is commonly expressed as **IP** (Ingress Protection) followed by 2 numbers (i.e. 64) where the numbers define the fixture rating. The first number indicates the size of a particle that can enter the fixture. The second number indicates the extent of protection against water entering the fixture. An IP64 rating in this fixture indicates that dust particles can not enter the fixture. And there is protection against splashes of water from entering the fixture from any direction.

Road Case

CAS-1310-4 4 Unit Road Case

Mechanical Specifications

Tilt Angle:	190°
DMX Connectors:	Panel Mounted IP67 5-pin XLR connectors in/out
Power Connections:	Panel Mounted Seetronic IP Rated Power in/out connection (Nema 5-15 to Seetronic power Female cable included)
Thermal:	Maximum ambient temperature 40° C Maximum surface temperature 60° C
Display:	Digital
Fastening System:	2 Quick Release Clamp Mount
Lens Angle:	120°
Ip Rating:	IP64

Electrical Specifications

LED Type:	572 RGB 1W and 144 White 8W
CRI:	90 on White
LED Lifetime:	50,000 to 80,000 hours (Average)
Power Consumption:	Universal 100 - 240V 50/60 Hz
Ballast:	Electronic
Watts:	713W
Amps:	6.22A
PF:	.99

Control & Programming

Protocol:	DMX 512
RDM:	Yes

Operating Mode:	Stand alone 255 step dimmer setting via display Auto preprogram via display

Main Power Connection

Caution!

1. Do not connect fixture to a dimmer system.
2. This unit has Auto switching power supply. It will respond to 110V or 240V automatically
3. This unit must be earthed. (electronically grounded)
4. Replace fuse only with the specified type and rating.
5. Power Link 2 units at 110V and 4 units at 220V

The occupation of the connection-cable is as follows:

This fixture is equipped with an electronic power supply that will let the unit operate from 100V to 240V from 50Hz to 60Hz

Cable (USA)	Cable (EU)	Pin	110V	220V
Black	Brown	Live	L	L
White	Light Blue	Neutral	N	L
Green	Yellow/Green	Ground		

110V—Connection

220V—Connection

DMX-512 Connection

The fixture is equipped with 5 pin XLR cable mounted sockets for DMX input and output. The sockets are wired in parallel. Only use a shielded twisted pair cable designed for RS-485 and 5 pin XLR plugs and connectors in order to connect the controller with the fixture or the fixture with another.

DMX—input

1. Shield
2. Signal (-)
3. Signal (+)
4. N/A
5. N/A

DMX—output

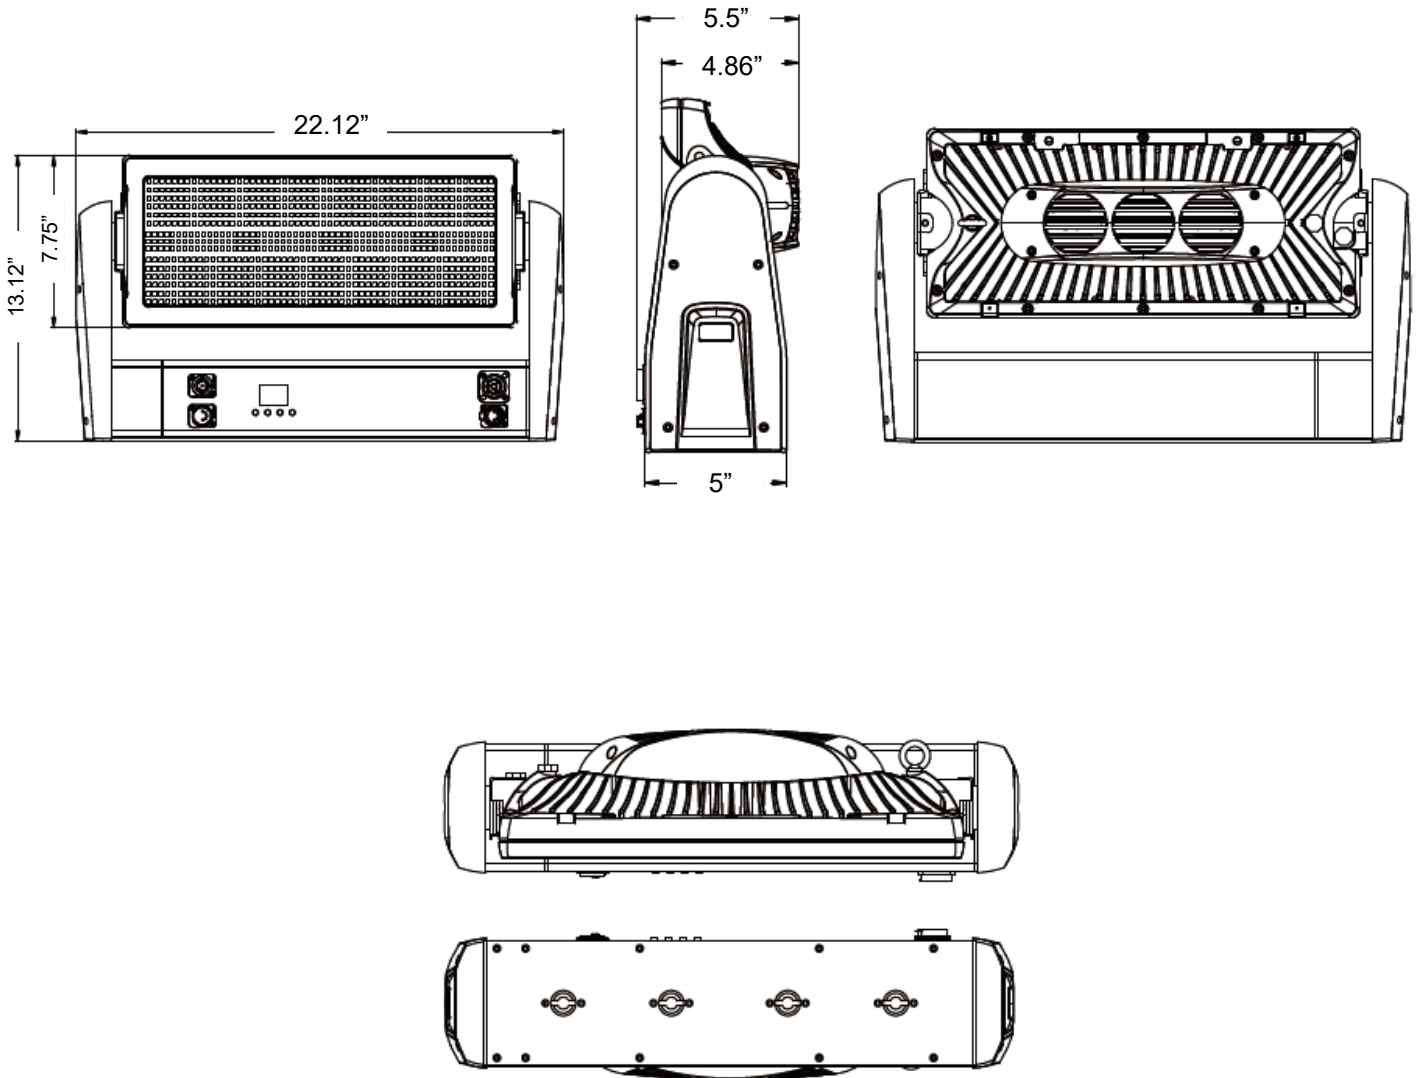

Caution!

At the last fixture the DMX signal needs to be terminated with a terminator. Solder a 120 Ohm resistor between the (-) and the (+) signal into a 5 pin XLR plug and plug it in to the last fixture on the signal run. Pre-manufactured terminator plugs are available for purchase from your Mega-Lite dealer (P-DMXT).

Size and Weight

Size	22.12" X 13.12" X 5.5"
Weight	23lb
Packaged	27.36" X 9" X 17.25" 25lb

Main Control Menu

The control board on the fixture is your interface to access and control all the functions on the unit. Its digital display gives you a code view of the options and functions. The following will explain each function and its options.

Parts List

Tiltbot Trio

Part Number	Description
1311PCBLEDMOD	COMPLETE LED MODULE
1310PCBDRIA	LED DRIVER A
1310PCBDRIB	LED DRIVER B
1310PCBDISMAI	MAIN PCB AND DISPLAY
1310PCBPOW	POWER RELAY PCB
1310FAN	FAN
1310POW	POWER SUPPLY
1310LEDRGB	SINGLE RGB LED
1310LEDWHI	SINGLE WHITE LED
1310HOUSTI	OVERLAY STICKER
1310HOUYOK	HOUSING YOKE
1310HOUFAN	METAL FAN HOUSING HOLDER
1310BEZARM	PLASTIC ARM BEZEL
1310BEZFAN	PLASTIC FAN COVER BEZEL
1310GLAFRO	FRONT COVER GLASS
1310HOUGUI1	TILT YOKE ARM LOCATION RING
1310HOUMOT	TILT MOTOR GEAR
1310CONPOW	SEETRONIC POWER IN&OUT PANEL CON
1310CONSIG5	SEETRONIC SIGNAL IN&OUT 5PIN PANEL CON
1310CONSIG3	SEETRONIC SIGNAL IN&OUT 3PIN PANEL CON
1310MOTTIL	TILT MOTOR
1310SEAFRO	FRONT GLASS FRONT WEATHER SEAL
1310SEABACK	FRONT GLASS BACK WEATHER SEAL
1310SEADIS	DISPLAY WEATHER SEAL

Rigging the fixture

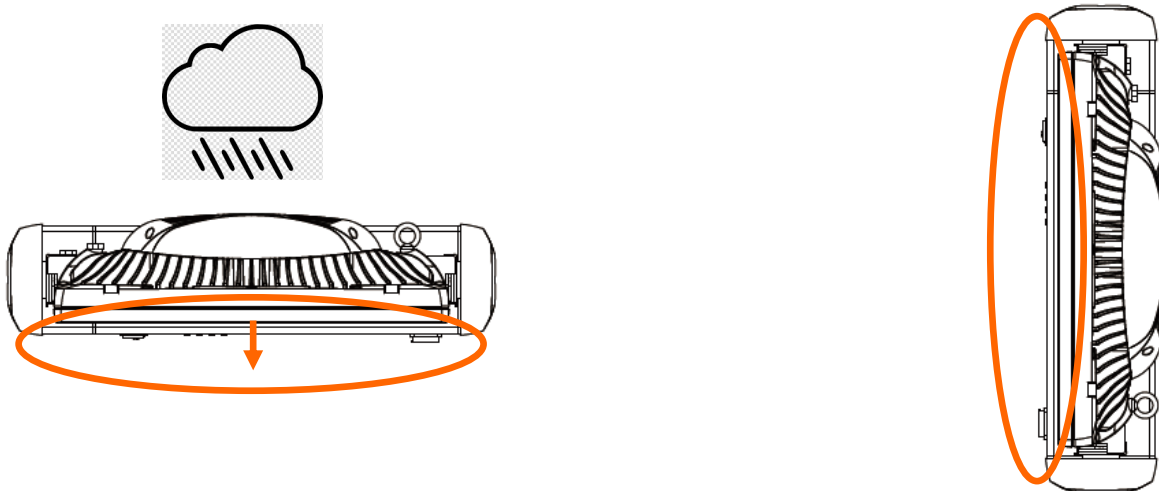

Caution!

1. The installations must be carried out by an authorized dealer or trained professional.
2. Unit may cause severe injures if you have doubts concerning the safety do not install.
3. Unit is to be 24inches away from flammable materials (decoration material)
4. Use high quality installation equipment to hang unit.

When rigging a unit it is very important that you follow common safety procedures. Rigging requires extensive experience including but not limited to calculating working loads, material being used and periodic safety inspections. If you lack these qualifications, do not attempt the installation yourself, instead use a professional structural rigger.

When rigging the unit always be secured with a secondary safety attachment. The installation location of the projector has got to be built in the way that it can hold 10 times the weight for 1 hour with out any harming. Installation should be checked at least one time a year by a skilled person.

When mounting the fixture must be mounted in a way water will not sit on the panel power or signal connections.

Cleaning and Maintenance

Installation Maintenance: The operator has to make sure that the unit is operating safely and has the installations and electronics checked by an expert every 2 years.

The following points have to be considered during the inspection:

- 1) All screws used for installing the device or part of the device have to be tightly connected and must not be corroded.
- 2) There must not be any deformations on the housing, fixation and installation spots (ceiling, suspension, trussing).
- 3) The electronic power supply cables must not show any damages, material fatigue (e.g. porous cables) or sediments.
Further instructions depending on the installation spot and usage have to be adhered by a skilled installer and any safety problems have to be removed.

Note: There is no serviceable parts inside the device except for the LED's. Maintenance and service operations are to be carried out by authorized dealers.

Replacing the fuse: When possible only replace the fuse with the same type and rating.

Replacing the power cable: If the power cable of this device becomes damaged, it has to be replaced by authorized dealers or trained professional only.

Should you have further questions , please contact your dealer.

Warranty Information

Warranty Conditions

- Unless otherwise stated in writing, your product is covered by a one year parts and labor limited warranty.
- LED's and LAMPS are not guaranteed to match in color temperature or output.
- It is the owner's responsibility to furnish receipts or invoices for verification of purchase, date, and reseller or distributor. If purchase date cannot be provided, date of manufacture will be used to determine warranty period.
- Goods returned under warranty must follow the proper authorization procedure and must be accompanied by a copy of the original invoice.
- Goods repaired under warranty will be returned to the owner with the freight prepaid by MSI via the most economical means of shipment.
- Repair or replacement as provided for under this warranty is the exclusive remedy of the consumer. MEGA SYSTEMS INC. makes no warranties, express or implied, with respect to any product, and Mega Systems specifically disclaims any warranty of merchantability or fitness for a particular purpose. Mega Systems shall not be liable for any indirect, incidental or consequential damage, including lost profit, sustained or incurred in connection with any product or caused by product defect or the partial or total failure of any product regardless of the form of action, weather in contract, tort (including negligence), strict liability or otherwise, and weather or not such damage was foreseen or unforeseen.
- Warranty is void if the product is misused, damaged, modified in any way, or for unauthorized repairs or parts. This warranty gives you specific legal rights, and you may also have other rights which vary from state to state.

Customer Support

Mega Lite has a customer support line to provide set up help and to answer any question should you encounter a problem. Please visit our website for any other related technical documents. For service related issue please contact our service dept.

Monday—Friday 9am to 6pm CST
Voice: 210-684-2600
